

The Gulo wheel system is designed around the exceptional characteristics of the Gulo G-Spoke and optimized as a high-performance package

The Gulo wheel system incorporates the Gulo G-Spoke, a **triaxially braided carbon composite spoke** that utilizes **Ride Smooth Technology (RST)**. This technology emphasizes compliance, comfort, stiffness, and strength. By controlling the braid angle and using advanced materials, the Gulo G-Spoke reduces vibrations from surface chatter, providing a remarkably smooth ride experience.

With a **tensile strength 20% stronger than stainless steel spokes**, the Gulo G-Spoke offers exceptional durability and reliability. It absorbs impacts effectively, retains tension longer than traditional steel spokes at a fraction of the weight, and revolutionizes the game with its unique composite design.

The Gulo wheel system, combined with RST, ensures a buttery-smooth ride, making it a game-changer in ride quality.

*Tensile strength (TS) is the maximum stress a material can withstand while being stretched or pulled before breaking.

*Kilogram-force (kgf) is a unit used to measure force.

30-Day Money Back Guarantee

We stand by our wheels 100% and are confident that you will be satisfied, if not ecstatic, with your purchase. That is why we offer a 30-day money-back guarantee. You may return your wheels for a full refund within thirty days of purchase. It's that simple.

Carbon Composite Spokes

Lifetime Unlimited Warranty
Break a spoke? We will replace it.
No questions asked.

Gulo Carbon Composite Rims Lifetime Limited with Crash Replacement Plan

Gulo Composites warrants our carbon composite rims to be free from defects in materials and workmanship for the expected product life to the original, registered owner. If your rims develop any problems outside of normal wear and tear, send your wheels back to the Gulo Wheelhouse and we will repair or replace any parts that do not conform to our quality specifications. Replacements will be with the current similar components.

Gulo Hubs

Lifetime Limited with 1-year free bearing replacement & free service. Please visit Gulocomposites.com for complete details.

GULO Carbon Composite Wheelset Series

GULO's innovative approach represents the future of bicycle wheel technology, addressing the limitations of 19th-century metal spokes with 21st-century materials and design found in the G-Spoke. An upgrade in performance and a shift towards a more efficient, comfortable, and reliable cycling experience. The G-Spoke with Ride Smooth Technology redefines what riders can expect from their wheels, ushering in a new era of cycling technology.

Mountain Series 29"

Developed to achieve the ultimate ride quality, Gulo's Mountain PNF Series wheels offer compliance in the most challenging terrain. Race and trail-ready, our wheelsets are a sublime blend of high-performance, lightweight, and rock-smashing toughness. We accomplish this through our tougher-than-steel triaxial braided carbon composite spokes. Designed, manufactured, and field tested in Brevard, North Carolina, home of the Pisgah National Forest.
